This resource provides a gradual introduction to entrepreneurial concepts and elements for patrons new to small business ownership. For more seasoned business persons, the focus shifts toward outcome-based activities to support the management and growth of an operation, such as getting a loan, seeking investors, buying new equipment, or opening new facilities.

Gale Business: Plan Builder enables nonprofits to create a grant proposal the same way a new startup would write a business plan. Structuring a nonprofit's creation and operation allows founders to focus on enhancing their organization's social mission.
